

The Board of Directors*

The Board of Directors discusses the company's main strategic, economic, financial and technological directions. It is made up of 27 members with an equal proportion of state representatives, salaried administrators and external members representing the socio-economic environments, customers and municipalities concerned by RATP operations. Three thematic committees work specifically on matters relating to strategy and economics, the upgrading and development of networks, innovation and customer services. A working group has been created to deal with issues relating to competitiveness. It is open to all administrators. In addition, an audit committee will be handling accounts, the internal audit programme and the risk management policy.
